Assemble all the tubes together with the hexagonal screw.

After assembly and performing Step A, B and C simultaneously, Autopole can be stood up.

(In Step B, please make sure the knob is tightened before putting your hands off the pole.)

Grasp the Autopole and pull the upper part up until the top rubber foot of the Autopole compresses the ceiling.

Tighten the knob when both top rubber foot and bottom rubber foot compress to the ceiling and floor respectively.

Screw the post ⑥ to the hole at the lower end of the Autopole.

Step on the post of the Autopole downwards hardly to compress the bottom rubber foot to the floor.
